## Experience

---

Natalia is a Costa Rican lawyer, notary public and private accountant with more than fifteen years of professional experience in the legal, financial and corporate sectors, having developed her career between Costa Rica and Spain. Her professional practice focuses on international arbitration, corporate contracting, dispute resolution and strategic advisory in international and multi-jurisdictional environments.

She has experience in the supervision and management of complex case files, contractual analysis, alternative dispute resolution, regulatory compliance and coordination of proceedings in corporate and arbitral environments. Likewise, she develops her professional and academic practice in international and multilingual contexts.

Natalia is a university professor at ULACIT, Costa Rica, in the areas of international arbitration, mediation and international contracting, integrating practical approaches linked to dispute resolution, negotiation and new technologies applied to Law.

She has worked in national and international firms, institutions and companies, including Clyde & Co, ECIJA, Cargill, the Central Bank of Costa Rica, Kimberly-Clark and Deloitte, participating in matters related to corporate contracting, compliance, regulatory analysis, international taxation, process auditing and strategic management of legal and financial risks.

Her profile combines legal, financial and technological experience, with a special interest in artificial intelligence, new technologies and legal tech applied to the legal sector and dispute resolution.

Natalia holds a Master's Degree in International Advocacy from the Universidad Carlos III de Madrid (UC3M), a Master's Degree in International Arbitration from the Universidad Internacional de La Rioja (UNIR) and a Master's Degree in Tax Advisory from ULACIT, Costa Rica. Likewise, she completed studies in Political Science at Southern Utah University, United States. She is currently a PhD candidate in Law at UC3M, where she researches artificial intelligence applied to commercial contracting and dispute resolution.

She is a member of CIArb, CEIA and CIIAM. She is part of the Digital Economy Working Group of CIIAM and the Arbitration Working Group of CEIA, and is a member of the Board of Directors of the Arbitration and Mediation Center of the Costa Rican Bar Association (CAM).
